

Towards our commitment for Skilling of the Students of University of Delhi, we had an awareness event at Department of Resource Management and Design Application, Institute of Home Economics, University of Delhi.

We discussed the Definition of Startups, Facilities and benefits available to Startups, Startup Registration system and the handholding support being provided to these young student Startups by the [Chamber of Indian Micro Small & Medium Enterprises](#)

We could find numbers of interested students with great ideas to start their ventures. Teachers were also interested a lot in the topic. They discussed on social entrepreneurship, PMFME and other schemes.

We are committed to handhold 10,000 young students this financial year to create job creators than job seekers.
